Perplexity - Ask AI

Perplexity is a superpower for your curiosity that lets you ask questions or get instant summaries while you browse the internet.

Ask anything while you browse

When you have a question, ask Perplexity and it will search the internet and write you a quick answer with cited sources.

Perplexity

What's the meaning of life?

Internet · This Domain · This Page

PERPLEXITY · View Detailed

The meaning of life is a philosophical question that has been debated for centuries. Some believe that it is to find coherence and purpose in one's existence [1], while others argue that there is no inherent meaning to life [2]. Philosophers have attempted to identify what people mean when they ask about the meaning of life [3]. A study found that finding meaning in life can be associated with better health and wellness [4]. Ultimately, the answer to this question may depend on one's personal beliefs and values.
